

Project Title: The Foodie Zone

(By SEMESTER – VI of III Year M.Sc. (CA & IT) 2022-23)

Submitted By:

Student Name: Roll No.:

- 1.Tirumal Boga – 3093
- 2.Krushal Joshi – 3111
- 3.Deep Patel – 3175

Group ID: 43

Name of Company: CreArt Solution

Date of Submission: 24/04/2023

Submitted To

K. S. School Of Business Management

M.Sc. – Computer Application and Information Technology

CREART

TO WHOM IT MAY CONCERN

"This is to certify that **Mr. Tirumal Ishwarbhai Boga** has successfully completed analysis and Design of the Project on "**The foodie Zone**" under me. This Work is original has not been submitted elsewhere."

Signed by Project Guide,

Name: Alkesh Kaba

Designation: Sr. Python Developer

Date: 17/04/2023

CREART

TO WHOM IT MAY CONCERN

"This is to certify that **Mr. Krushal Bhanuprasad Joshi** has successfully completed analysis and Design of the Project on **The foodie Zone** under me. This Work is original has not been submitted elsewhere."

"This is to certify that **Mr. Deep Hiteshbhai Patel** has successfully completed analysis and Design of the Project on "**The foodie Zone**" under me. This Work is original has not been submitted elsewhere."

Signed by Project Guide,

Name: Alkesh Kabel

Designation: Sr. Python Developer

Date: 17/4/23

Date: 17/4/23

TO WHOMSOEVER IT MAY CONCERN

This is to certify that Mr. Tirumal Ishwarbhai Boga, Student of third year MSc-ITS School of Business Management, Gujarat University has successfully completed software project development training in CREART SOLLUTION. He worked The Foodie Zone from 19-09-2022 to 15-04-2023. This is an original work and this work has not been submitted anywhere in any form

We found him sincere, hardworking, technically sound and result oriented. We take the opportunity to thank him and wish him all the best for his future.

Name: Alkesh Kaba

ACKNOWLEDGEMENT

I would like to express our thanks to the people who have helped us most throughout our project. We are grateful to our internal guide **DRASHTI SHAH** Ma'am for nonstop support for the project. A special thanks of ours goes to the **CreArt Solution** who helped us by providing their support to us. Their continuous help & support made the project much easier. We also express our sincere thanks to all our friends & beneficial who helped us throughout this project.

CHAPTER – 1 INTRODUCTION

1.1 ORGANIZATION PROFILE

CreArt Solutions

Email: hello@creart.in

Contact: 9016647480

Contact Person: Alkesh Kaba

Address: 202, Heritage Horizon, Opp. Hotel Dev Corporate, OFF C. G., C. G. Road, Umashankar Joshi Marg, Vasant Vihar, Navrangpura, Ahmedabad, and Gujarat - 380009

1.2 SYSTEM DETAILS

1.2.1 EXISTING SYSTEM

- In the present scenario, people have to physically visit the hotels or restaurants for eating food.
- Through offline Restaurant time as well as physical work is required, among which time is something that no one has in ample amount.
- The traditional food ordering procedure is not efficient enough for hotels and restaurants, as they have to deal with the crowd, in their restaurant.
- Also, from the owner's point of view maintaining data records and the accounts in the physical file are heavy and difficult work to do.
- And, it is full of risk as anyone can access it and modify the data.

1.2.2 PROPOSED SYSTEM

- Our system enables the end-users to register to the system online, select the food items of their choice from the menu list, and order food online.
- Also, the payment can be made through online mode or at the time of home delivery depending upon the customer's choice and convenience.
- Online food ordering system is more time-saving and has door to door delivery.
- Online food ordering for customers is that it ensures prices are accurate.

1.3 SCOPE OF SYSTEM

- Our The Foodie Zone project aimed at developing an online food ordering system that can be used in small places, and medium cities firstly and then on a large scale.
- The main purpose of our The Foodie Zone project is to provide customers for a way to place an order at a restaurant over the internet.
- Our system helps restaurants to develop healthy customer relationship by providing good services.

K.S. SCHOOL OF BUSINESS MANAGEMENT M.Sc. (CA & IT)

- The system enables restaurants to let update and make changes to their food and beverage list information based on the orders placed and the orders completed.
- It is developed to help restaurants to simplify their daily operational and managerial task.

1.4 OBJECTIVES

- Our website The Foodie Zone will provide easy-to-use online meal ordering for customers.
- It will provide customer to give feedback and view others feedbacks.
- Also, Restaurants can register their self on our website.
- Customer can order their favourite comfort food from the couch with the help of our website.
- Main objective of the system is to give customers the freedom and choice to place an order online any time, from anywhere.

CHAPTER-2 PROPOSED SYSTEM REQUIREMENT GATHERING

2.1 STACK HOLDER OF THE SYSTEM

1) Admin

- An admin is responsible for maintaining the system as well as to keep the system running smoothly.
- Admin also manage the functionalities of the system like view users details, manage restaurant,view feedbacks.

2) Customers

- Customer is the user of the system which uses the functionalities and services provided by the system.
- A Customer can view food category, give freedom to place an order.
- User can rate and comment on the System.

3) Sellers/Restaurants

- Restaurant can register their self, place offer, update food menu.
- Restaurant/Sellers can manage food items.
- Restaurant/Sellers can see feedback of Customer

2.2 REQUIREMENT GATHERING TECHNIQUE USED

We used Interview technique for gathering the requirements.

Interview Q/A of Stakeholders:

1) Admin

Q.1. Do you have basic knowledge of IT?

Ans. Yes

Q.2. Do you understand your role as an admin?

Ans. Yes

Q.3. Will you able to fix minor issues related to the website by yourself?

Ans. Yes

Q.4. Have you ever managed some system like this before?

Ans. No

Q.5. If sometimes any restaurant is stuck with any problem or don't understand something regarding the system, will you help them out or not?

Ans. Yes

Q.6. Will you generate the report periodically?

Ans. Yes

Q.7. Will you collect the analytics?

Ans. Yes

Q.8. Will you be able to manage food items category, restaurants, users, and food orders.

Ans. Yes

Q.9. Are you going to manage feedback?

Ans. Yes

Q.10. How you will be managing our system? Explain in details.

Ans. I'll manage the food items category, view restaurants details, view users details, food orders, view feedbacks will also be managed. If some kind of some problem occurs into the system related to any entity, than I will solve that problem as soon as possible.

2) Customers

Q.1. How do you find our idea of getting food at any place on the single webpage?

Ans. Good idea as well get more options to order food.

Q.2. Will you rely on our system for getting the above-mentioned things done?

Ans. Yes

Q.3. Do you prefer online mode of payment?

Ans. Yes

Q.4. Will you opt for getting the online food?

Ans. Yes it would save a lot of time.

Q.5. What features or kind of look you would prefer in our system?

Ans. System should have friendly navigation and easy to use.

Q.6. what do you know about online system?

Ans. We have visited some food ordering sites so we know about the basic functionality of them.

Q.7. System should be attractive or user friendly or both?

Ans. Both

Q.8. Would you rather prefer online or offline system?

Ans. Online System for getting things done fast.

Q.9. Would you like to share the feedback of our services which you used?

Ans. Yes

Q.10. Would you recommend our system to others if you like it?

Ans. Yes

Q.11. which features do you appreciate in our system?

Ans. Getting variety of food without visiting the restaurants physically generally.

3) Sellers/Restaurants

Q.1. Describe your target audience.

Ans. Our target audience is going to be the people who are in need of online food services.

Q.2. what goals do you want to achieve through this system?

Ans. Major Goal is to sell our food with the customers who wants to order food online and through online food the time of clients as well as of ours will be saved.

Q.3. what makes you different from your competitors?

Ans. The way we provide good quality foods to the customers.

Q.4. what functions do you need in system?

Ans. Functions like Managing offer, different category of food, view customer feedback for our product, customers can make the payment online and offline.

Q.5. From which mode of payments would you like to receive payment?

Ans. Online payment will be preferable.

Q.6. Do you want your clients to provide a feedback on your restaurant services?

Ans. Yes.

Q.7. Do you currently have a website? If so, what is/isn't working for you?

Ans. No.

Q.8. Who is your ideal customer?

Ans. Looking for the food with less time duration.

Q.9. so, are there any colour preferences for the system?

Ans. The system should look professional.

2.3 CONSOLIDATED LIST OF REQUIREMENTS

- For making it easy to get food at any place for customer where they will get different category of foods.
- Customer can get the food services they are in need of.
- Customer can pay for the services through online and offline payment option.
- They can also provide their valuable feedback for the system services.
- Admin can also view the payment status and feedback provided by the client.
- Admin can view details of users and manage restaurants.
- Restaurants can manage orders of food items and offers on food items.
- Restaurant can see feedback of the customer.

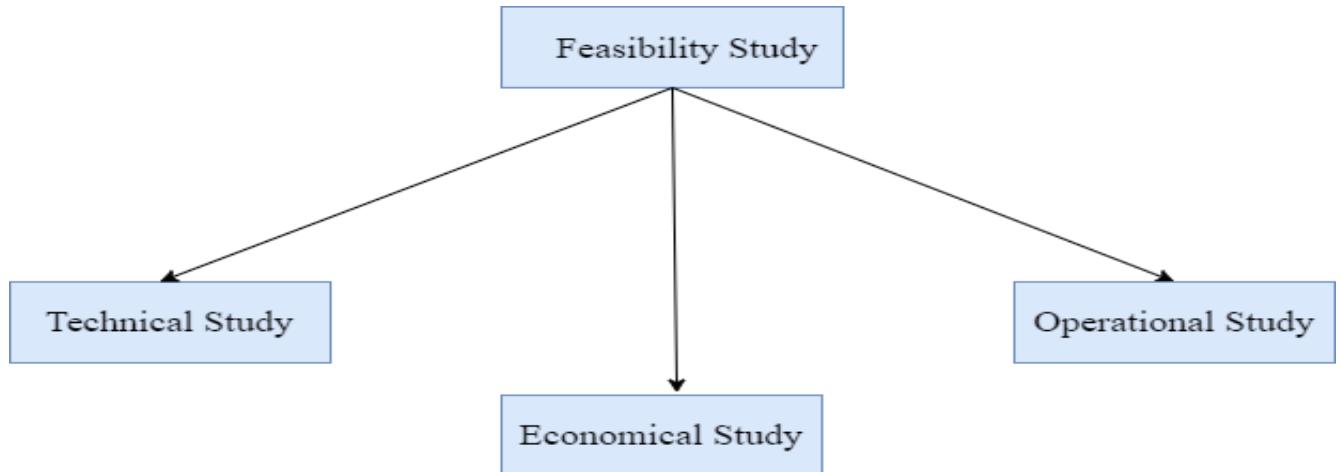

2.4 PROJECT DEFINITION

- Our website The Foodie Zone (clone of Zomato) will provide easy-to-use online meal ordering for customers.
- It will provide customer to give feedback and also view other feedbacks.
- Due to our system user can save lot of time.

CHAPTER-3: SYSTEM MANAGEMENT AND PLANNING

3.1 Feasibility Study

The feasibility study is an important phase during the development of any project, its goal is to determine whether the project is doable or not. Our capstone project is about building a web application, which purpose is to help people in choosing their favourite food from nearby restaurants. Feasibility of a new system means ensuring that the new system, which we are going to implement is efficient. There are various types of feasibility to be determined. They are:

3.1.1 Technical Study

First, the technical feasibility is to understand if it is possible to complete the project with the current technologies. This application is going to use many programming languages and frameworks in order to ensure a good user experience for the end user. The structure of the application will consist of a backend and a frontend.

- The Foodie Zone food ordering system is a web-based application. The main technologies and tools which are going to be used are as follows:
 - HTML
 - CSS
 - Bootstrap
 - Python
 - Django
 - MySQL
 - Diagram Drawing Tools: - Draw.io

3.1.2 Economical Study

- Second, the economic feasibility is essential to know the budget needed for the completion of the application, and how much income it would be able to generate once released. The necessary budget for this project is low, the technologies needed for this project are free to use.
- The System will follow the freeware standards. No cost will be charged from the potential customers.
- Relatively there is no cost associated in managing the system once it is developed.
- No special hardware integration is required by the system.
- So, it is very much clear that our system is economically feasible.

3.1.3 Operational Study

K.S. SCHOOL OF BUSINESS MANAGEMENT M.Sc. (CA & IT)

Operational feasibility is the measure of how well a proposed system solves the problems and takes advantage of the opportunities identified during scope definition and how it satisfies the requirements identified in the requirements analysis phase of system development.

- Determines whether the problems anticipated in user requirements are of high priority.
- Analyses whether users will adapt to a new software.
- Our system will be easy to use and much secured.

3.2 Hardware / Software Requirement

- Server-Side Requirement:

- Software Requirement:

Frontend	HTML, CSS, Bootstrap, Python
Backend	MySQL
Tools	Sublime Text

- Hardware Requirement:

RAM	2GB or Higher
Hard Disk	1GB or Higher
Processor	Core i3 or Higher

- Client-Side Requirement:

- Software Requirement:

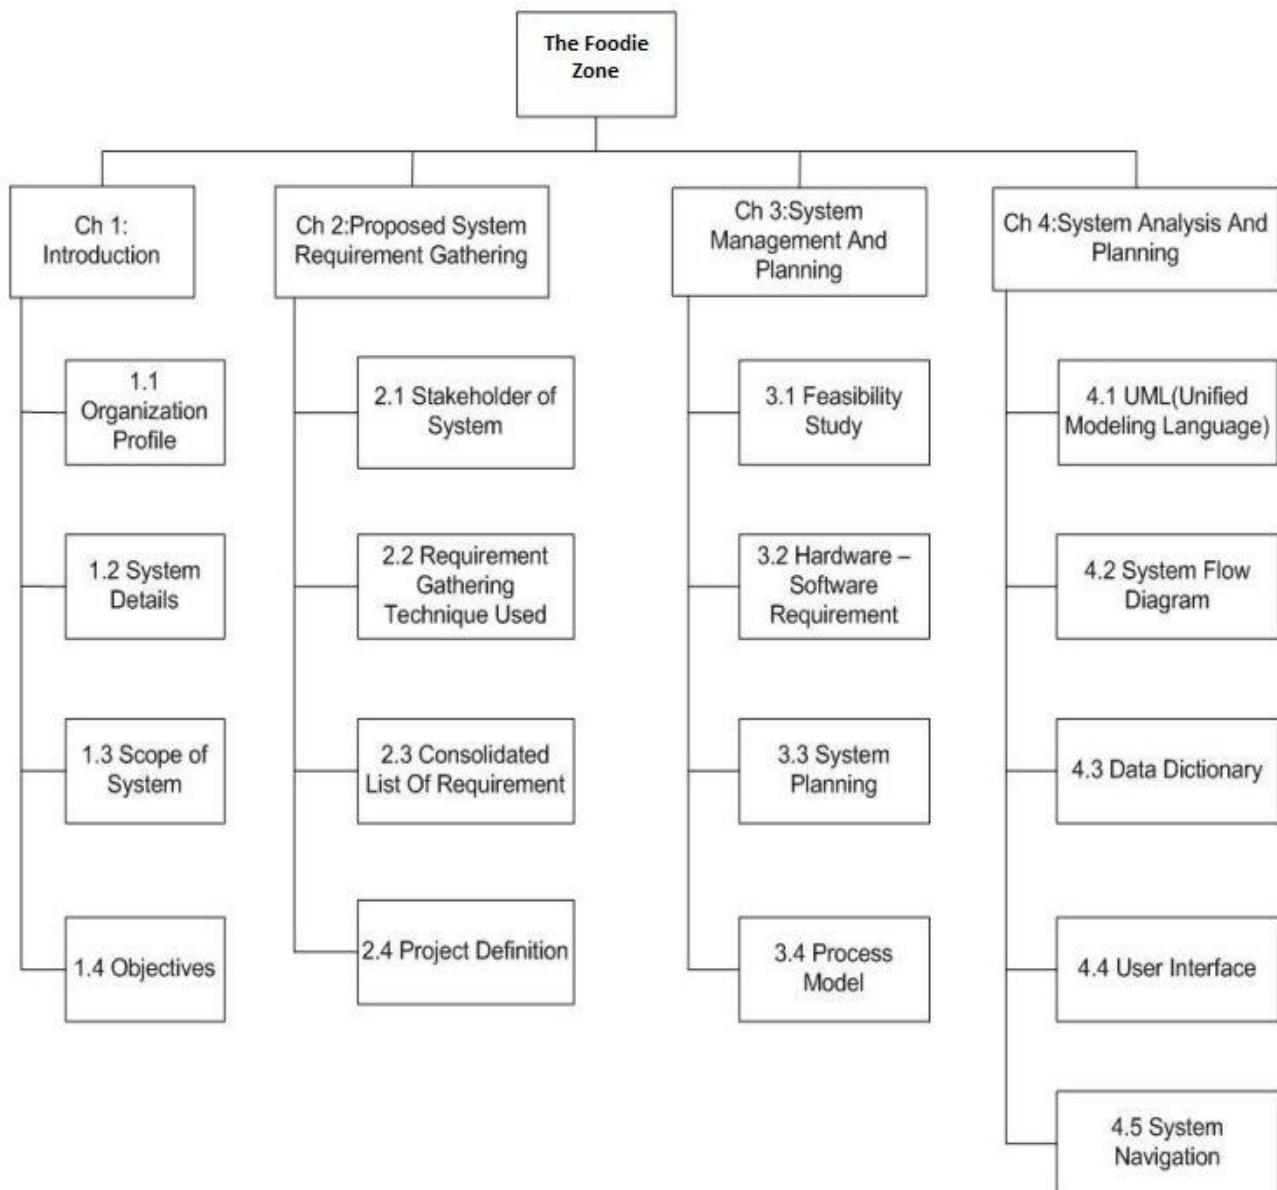

OS	Minimum Windows 8 or Higher
Browser	Mozilla v65.0.2 or Chrome v73.0.3683.86

- Hardware Requirement:

RAM	2GB or Higher
Hard Disk	1GB or Higher
Processor	Core i3 or Higher

3.3 System Planning

3.3.1 Work Breakdown Structure

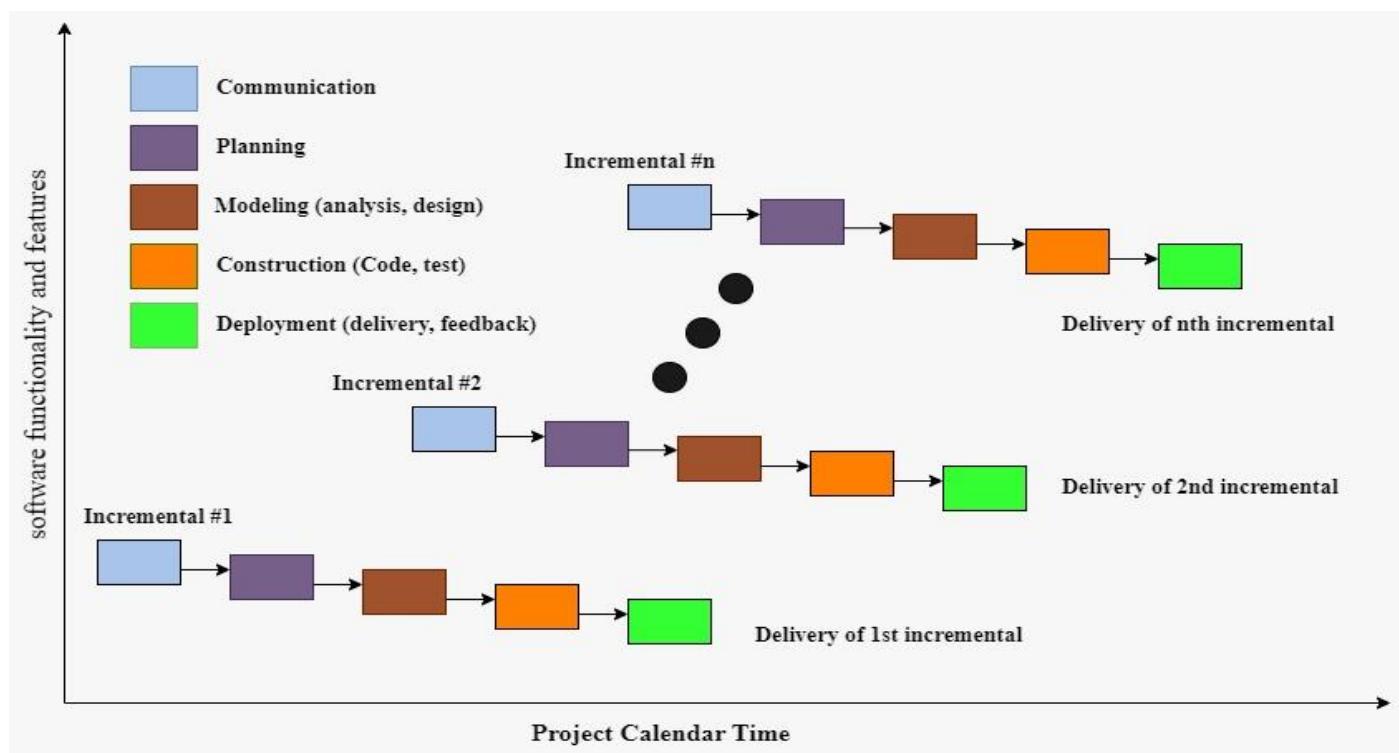

3.3.2 Gantt Chart

Activities	September	October	November	December	January	February	March	April

System Flow Diagram								
User Interface								
System Navigation								
5. Deployment [Coding]				Start	Start	Start	Start	
6. Testing and Implementation							Start	

3.3.3 Process Model

Incremental Model:

- When initial requirements are reasonably well defined, and the overall scope of the development effort prevents a purely linear process. A need to expand a limited set of new functions to a later system release.
- It combines elements of linear and parallel process flows. Each linear sequence produces deliverable increments of the software.
- The first increment is often a core product with many supplementary features. Users use it and evaluate it with more modifications to better meet the needs.
- Suited for large projects, less expensive to the change of requirements as they support customer interactions with each increment.
- Initial versions of the software are produced early, which facilitates customer evaluation and feedback.
- It doesn't fit into small projects, or projects that waterfall are best suited for; A structured process with a detailed, and accurate description of the system.

4.4 USER INTERFACE

➤ User Home Page:

K.S. SCHOOL OF BUSINESS MANAGEMENT M.Sc. (CA & IT)

The screenshot shows a web browser window with a dark-themed interface. The address bar displays "The Foodie Zone" and the URL "127.0.0.1:8000/customer/home". Below the address bar, there are links to "Gmail", "YouTube", and "Maps". The main content area displays a grid of six restaurant cards:

- Dominos**: dominos7777@gmail.com, 9375999022, himalya, [view](#). Image: A large chicken sandwich with fries.
- honset**: honst0987@gmail.com, 6587998945, H.L College, [view](#). Image: A pizza in a pan.
- La Pino'z Pizza**: LaPino'zPizza0987@gmail.com, 7867452398, Ashram Road, [view](#). Image: A variety of pizzas and sides.
- McDonald's**: mcdonald12345@gmail.com, 7894562309, Ashram Road, [view](#). Image: A meal consisting of a burger, fries, and a drink.
- La Milano Pizzeria**: lamilanopizzeria5678@gmail.com, 6534879067, Navrangpura, [view](#). Image: A pizza in a pan.
- Urban Khichdi**: urbankhichdi4321@gmail.com, 9812875509, Navrangpura, [view](#). Image: A variety of Indian dishes.

A yellow "View more" button is located at the bottom center of the grid.

The screenshot shows a web browser window with a dark-themed interface. The address bar displays "The Foodie Zone" and the URL "127.0.0.1:8000/customer/home". Below the address bar, there are links to "Gmail", "YouTube", and "Maps". The main content area displays two user reviews:

- krushal** (5 stars, April 15, 2023): The Foodie Zone provides a broad selection of restaurants and cafes giving you the opportunity to try out new flavors and dishes.
- krushal joshi** (4 stars, April 22, 2023): website is very helpful for quick order

The footer section of the website has a dark background. It includes:

- Contact Us**: Call +91 7622070173, thefoodiezone2550@gmail.com
- The Foodie Zone**: The Foodie Zone may also include features such as customer reviews, ratings, and photos of the food to help customers make informed decisions about their orders.
- Branding**: The Foodie Zone logo, which is a yellow circle with the text "The Foodie Zone" in white.
- Copyright and Credits**: © 2023 All Rights Reserved By The Foodie Zone, © Distributed By Tirmal Boga
- System Status**: Weather icon showing "40°C Sunny", system tray icons for battery, signal, and date/time (15:30, 23-04-2023).

K.S. SCHOOL OF BUSINESS MANAGEMENT M.Sc. (CA & IT)

➤ User Profile:

The screenshot shows the 'Edit Profile' page of 'The Foodie Zone'. The page has a form with various input fields:

- Name : krushal joshi
- Dob : 01-04-2023
- Contact : 9375093802
- Gender : Male
- E-mail : joshikrushal0987@gmail.com
- Username : krushal1234
- Area : SG Highway
- City : Ahmedabad
- Address : Swastik Society

At the bottom left is a yellow 'UPDATE PROFILE' button. The browser's address bar shows the URL: 127.0.0.1:8000/customer/edit_profile.

➤ Food Item Page:

The screenshot shows the 'Our Menu' page of 'The Foodie Zone'. It displays three pizza categories:

- MARGHERITA**: A hugely popular margherita, with a deliciously tangy single cheese topping. Price: \$99. Add To Cart button.
- Double Cheese Margherita**: The ever-popular Margherita - loaded with extra cheese... oodles of it. Price: \$199. Add To Cart button.
- Farm House**: A pizza that goes ballistic on veggies! Check out this mouth watering overload of crunchy, crisp capsicum, succulent mushrooms and fresh tomatoes. Price: \$270. Add To Cart button.

The browser's address bar shows the URL: 127.0.0.1:8000/customer/restaurant_category/1.

The screenshot shows a food delivery website interface. At the top, there's a header bar with tabs for "The Foodie Zone", "WhatsApp", and "localhost / 127.0.0.1 / thefoodie...". Below the header, a search bar and a "Cart" icon are visible. The main content area displays a grid of food items:

- MEXICAN GREEN WAVE**: A pizza loaded with crunchy onions, crisp capsicum, juicy tomatoes and jalapeno herbs. Price: \$249. **Add To Cart** button.
- PEPPY PANEER**: Chunky paneer with crisp capsicum and spicy red pepper - quite a mouthful. Price: \$220. **Add To Cart** button.
- CHEESE CORN**: Cheese I Golden Corn | Cheese n Corn Pizza. Price: \$1. **Add To Cart** button.
- Moroccan Spice Pasta Veg**: Instant Fusilli Pasta, Harissa Sauce, Onion, Mushroom, Olives, Parsley sprinkle. **NEW** badge. Price: \$1. **Add To Cart** button.
- DELUXE VEGGIE**: For a vegetarian looking for a BIG treat that goes easy on the spices, this one's got it all.. The onions, the capsicum, those delectable.. Price: \$1. **Add To Cart** button.
- TIKKA MASALA PASTA VEG**: Instant Fusilli Pasta, Spicy Red dressing, Onion, Paneer Tikka, Parsley sprinkle. **NEW** badge. Price: \$1. **Add To Cart** button.

The bottom of the screen shows a Windows taskbar with various icons and system status information like weather (40°C, Sunny), date (23-04-2023), and time (17:23).

➤ About Us Page:

The screenshot shows the "About Us" page of the food delivery service. The top part features a large, stylized illustration of a cheeseburger with various toppings like lettuce, cheese, and pickles. To the right of the illustration, the text "We Are The Foodie Zone" is displayed in a serif font.

The text below describes the service:

The Foodie Zone is a unique food delivery service that operates exclusively in one city. It is a popular platform that connects foodies with their favorite restaurants in the area, providing a wide range of delicious dishes from the best eateries in town. The Foodie Zone is an excellent option for those who want to explore new culinary experiences without having to leave the comfort of their own home. It is a convenient service that allows people to order food online from the comfort of their own homes or workplaces, and have it delivered straight to their door. All

The bottom of the screen shows a Windows taskbar with various icons and system status information like weather (40°C, Sunny), date (23-04-2023), and time (15:01).

K.S. SCHOOL OF BUSINESS MANAGEMENT M.Sc. (CA & IT)

- Feedback Page:

The screenshot shows a web browser window with three tabs open: 'The Foodie Zone', '(2) WhatsApp', and 'localhost / 127.0.0.1 / thefoodie...'. The main content area displays the 'Feedback' page for 'The Foodie Zone'. The page has a header with navigation links: HOME, ABOUT, ADD RESTAURENT, CONTACT US, FEEDBACK, LOGOUT, and a shopping cart icon showing 0 items. A search bar is also present. The main content area is titled 'Feedback' and contains a rating section with radio buttons for 'poor', 'Ok', 'good', 'very good', and 'Excellent'. Below this is a feedback text area containing the placeholder 'website is very help full' and a yellow 'SEND' button.

- Inquiry Page:

The screenshot shows a web browser window with three tabs open: 'The Foodie Zone', '(2) WhatsApp', and 'localhost / 127.0.0.1 / thefoodie...'. The main content area displays the 'Inquiry' page for 'The Foodie Zone'. The page has a header with navigation links: HOME, ABOUT, ADD RESTAURENT, CONTACT US, SIGN-UP, and SIGN-IN. The main content area is titled 'Inquiry' and contains four input fields: 'Name' (placeholder 'Enter Your Name'), 'E-mail' (placeholder 'Email'), 'Contact' (placeholder 'Contact'), and a larger 'Message' area (placeholder 'Message'). A yellow 'SEND' button is located at the bottom of the form. The status bar at the bottom of the screen shows weather information (40°C, Sunny), system icons, and the date/time (23-04-2023, 15:37).

- Cart Page:

The screenshot shows a web browser window for 'The Foodie Zone' with the URL 127.0.0.1:8000/customer/view_cart. The page title is 'Cart'. It displays a table with two items:

Cart_Id	Food Name	Quantity	Price	Category Name	Seller Name	Total	Delete
70	MARGHERITA	<input type="text" value="2"/>	99.00	Pizza	Dominos	₹198	Remove
71	Veg Makhani Burst Burger	<input type="text" value="1"/>	89.00	Burger	Burgerking	₹89	Remove

Below the table, it says 'Grand Total' and '287'. A blue 'Checkout' button is at the bottom left.

The screenshot shows a web browser window for "The Foodie Zone" at the URL 127.0.0.1:8000/customer/make_payment. A modal dialog box titled "FoodieZone" is displayed, indicating a successful payment. The modal contains fields for "UPI ID" (with "test@icici" entered) and a QR code for "Pay With UPI QR". Below the QR code, a green button with a checkmark says "Payment successful". The background of the page shows the order summary: "Your order" with a single item "corn pizza x 1" and a total of ₹99. It also shows "Cart Subtotal" ₹99, "Shipping" Free Shipping, and "Order Total" ₹99. The payment method is listed as "Razorpay". At the bottom of the page, there are sections for "Contact Us" and "Opening Hours". The system status bar at the bottom right shows "Test Mode".

The screenshot shows a web browser window for "The Foodie Zone" at the URL 127.0.0.1:8000/customer/success_payment. The main content area displays a large green checkmark icon and the word "Success" in green. Below it, a message reads: "Thank You for your payment! Your order is confirmed". The top navigation bar includes links for HOME, ABOUT, ADD RESTAURANT, CONTACT US, FEEDBACK, LOGOUT, and a search bar. The system status bar at the bottom right shows "Everyday" and the date "15-04-2023".

The screenshot shows the homepage of "The Foodie Zone". The header features the restaurant's name "The Foodie Zone" with a yellow circular logo containing the letters "The". Below the header, there are sections for "Contact Us" (with a phone number "Call +91 7622070173") and "The Foodie Zone" (with a brief description). The footer includes a weather forecast ("40°C Sunny"), a system status bar with "ENG IN" and the date "23-04-2023", and a standard Windows taskbar with various application icons.

K.S. SCHOOL OF BUSINESS MANAGEMENT M.Sc. (CA & IT)

➤ Category Page Input:

The screenshot shows a web browser window with three tabs: WhatsApp, Seller, and Admin. The Admin tab is active, displaying the URL 127.0.0.1:8000/seller/add_category. The page title is "thefoodiezone". On the left, there is a sidebar with links: Dashboard, Category (selected), Food-Items, Orders, and Logout. The main content area is titled "Category/ Add Category" and contains a form titled "Add Category". It has a "CATEGORY NAME" input field containing "Add Category" and a blue "Add Category" button. At the bottom of the page, a copyright notice reads "© 2023 All Rights Reserved By The Foodie Zone".

➤ Category Page Output:

The screenshot shows a web browser window with three tabs: The Foodie Zone, localhost / 127.0.0.1 / thefoodie, and Admin. The Admin tab is active, displaying the URL 127.0.0.1:8000/seller/all_category. The page title is "thefoodiezone". On the left, there is a sidebar with links: Dashboard, Category (selected), Food Items, Orders, and Log-Out. The main content area is titled "Category /View Category" and contains a table titled "Category Table". The table has columns: CATEGORY_ID, CATEGORY_NAME, and ACTION. It lists three categories: Pizza (id 2), Burger (id 3), and Pasta (id 4). The ACTION column for each row contains three vertical dots. At the bottom of the page, a copyright notice reads "© 2023 All Rights Reserved By The Foodie Zone". The taskbar at the bottom shows various system icons and the date/time: 23-04-2023, 19:01.

➤ Food Item Page Input:

The screenshot shows the 'Food-Items/Add Item' page. It includes fields for 'ITEM NAME' (with placeholder 'Add Item'), 'PRICE' (with placeholder 'Amount'), 'QUANTITY' (with placeholder 'Quantity'), 'FOOD ITEM IMAGE' (with 'Choose File' button and 'No file chosen' message), 'CATEGORY' (with 'Select Category' dropdown), and 'DESCRIPTION' (with a large text area). At the bottom is a blue 'Add Item' button.

➤ Food Item Page Output:

The screenshot shows the 'Food-Items/View Items' page. It displays a table titled 'Items Table' with columns: FOODITEM_ID, FOODITEM NAME, PRICE, QUANTITY, FOODITEM IMAGE, CATEGORY NAME, SELLER_ID, and ACTION. The table contains five rows of pizza data. A context menu is open over the fourth row, showing 'Edit' and 'Delete' options. The table data is as follows:

FOODITEM_ID	FOODITEM NAME	PRICE	QUANTITY	FOODITEM IMAGE	CATEGORY NAME	SELLER_ID	ACTION
1	MARGHERITA	99	1		Pizza	1	⋮
2	Double Cheese Margherita	199	1		Pizza	1	⋮
3	Farm House	270	1		Pizza	1	⋮
4	MEXICAN GREEN WAVE	249	1		Pizza	1	⋮
5	PEPPY PANEER	220	1		Pizza	1	⋮

SIGN UP

➤ Password Field and Confirm Password Field Must Match:

The screenshot shows the 'Seller Sign-up' form on a web browser. The fields filled are Name (dominos), Contact (9379089022), Username (dominos12), E-mail (krushal123@gmail.com), Password (Password), City (Ahmedabad), Address (himalya mall), and Area (navarangpura). A red error message 'password is not matched' is displayed above the 'Confirm Password' field, which is currently empty. Below the form, there is a yellow 'SIGN UP' button and a link 'If already registered - Sign-in'.

➤ Customer/Seller Sign In Page Validation:

The screenshot shows the 'Sign-in' form on a web browser. The 'Username' field contains '@r375'. An error message 'Please enter only letters and numbers' is displayed below the field. The 'Password' field is empty. Below the form, there is a yellow 'SIGN IN' button and a link 'Don't have an account? Sign-up'.

CHAPTER-7: SUMMERY

7.1 ASSUMPTION:

- For online Payment, Customer should be having the knowledge of how online transection can be done.
- The Customer should have the basic knowledge of how the online systems works.
- Proper Internet setup is required to run the system smoothly.
- User and Restaurants should be having a valid Gmail id.

7.2 LIMITATION:

- Customer cannot track the purchasing order.
- Customer cannot cancel order.
- End to end security is not provided in the system currently.

7.3 FUTURE SCOPE:

- We will add our own food delivery system.
- Customer will track purchasing order.
- We will add point system in which users will get point after every order.
- Scope of the System will be expanded to the other cities as well.

7.4 CONCLUSION:

- We can sum up the entire system in simple words that the System is stable enough to provide the services and ease to the customer. Also the Restaurants can manage order efficiently and can increase their customers.
